

EMPLOYEE TRAINING CHECKLIST

I have completed my training for understanding and using safety procedures in our workplace.

My training included:

1. The objective and requirements of the OSHA workers protection laws.
2. The content of this practice's written safety programs.
3. Where the list of hazardous chemicals used in this facility is located.
4. Where the material safety data sheets are located.
5. Understanding health and safety precautions on both labels and material safety data sheets and how to use this information to protect myself.
6. Appropriate choice and use of personal protective equipment.
7. Understanding "Universal Precautions".
8. Proper procedures to avoid transmission of infection.
9. The contents of this practice's written Exposure Control Plan.
10. Review and discussion of "Employee Training" and "Emergency and Safety Procedures" sections of the OSHA Compliance Manual.
11. Proper disposal procedures for infectious waste and sharps.
12. The opportunity to participate in HBV vaccination series.

Attach documentation of Training.

I feel comfortable with my level of understanding of OSHA's Hazard Communication and Blood borne Pathogen Standards and all of the information above. During my training, there was adequate opportunity to ask any questions that I may have had.
